

UPDATE RE: WATERLOO DISTRICT SCHOOL BOARD

The OGCA has been pleased by the strong show of support from members who have said “NO” to the Cambridge Solutions fee.

We appreciate the support of the Grand Valley Construction Association. As a result, we have had talks with the Board who were unaware of the industry’s opposition to such practices, despite the fact that OGCA had met previously with Cambridge Solutions and clearly made our point to them.

The Board is arranging a meeting with us, but we need all members, non members and subs to continue to strongly oppose this practice.

Thank you.
